

HOMETOWN CABLE

## **Hometown Cable HD and DVR Service**

### **Helpful Tips**

1. Always press the “STB” button when you want to control your set-top-box. Some “TV” functionality will still be enabled while using the “STB” setting (such as volume control).
2. Always press the “TV” button when you want to control your television (usually only necessary when turning power on/off or changing inputs)
3. If you get lost in any of the menus and want to start over, press the “EXIT” button
4. As a general rule, if you are having problems getting something to work, press the device key you are trying to control and try again. (Ex: If having problems getting the guide to come up, press “STB” to select their key settings and then press “Guide”)

### **How to view recording options from the interactive guide**

1. Press the “STB” button
2. Press the “Guide” button
3. Use the arrow navigation buttons to highlight a show you would like to record or view other options
4. Press the “OK” button
5. Highlight the action you would like to perform
6. Press the “OK” button

### **How to record a show**

1. Press the “STB” button
2. Press the “Guide” button to pull up the interactive guide
3. Use the arrow navigation buttons to highlight the show you would like to record
4. Press the RECORD button
5. The show you selected to record should have a red dot on the left side to indicate it is recording
  - a. If you would like to record a series, select the show and press “OK” on the remote to bring up your selection menu. After this select “Record Series”.
  - b. If you would like to set the show only to record new episodes.
    - i. Press “DVR List” on the remote
    - ii. Go to “Schedule Priority” and select show by pressing “OK”
    - iii. Select “Edit Series Recording”
    - iv. Use your up and down arrows to change to “New Only” and press ok and “OK” once more to accept changes at the bottom of the window.
